

CompTIA Server+

WANNA BE THE BACKBONE OF THE INTERNET?

GET CERTIFIED WITH COMPTIA SERVER+!

Servers are the silent giants behind every website, app, and cloud service. If you've ever wondered what keeps the digital world running — and want to be the one who manages it — then **CompTIA Server+** is your next big move.

At **EduPower Skills Academy**, we'll train you to **install, configure, secure, and troubleshoot servers** like a pro. Whether you're starting out in IT or looking to level up your skills, this course gives you the **hands-on experience and global certification** to launch a career in server and systems administration.

WHY STUDY SERVER+?

Globally Recognized Certification:

Trusted by top employers worldwide.

No Degree Needed:

Just bring your passion for tech.

Hands-On Training:

Learn real-world server setup, virtualization, and troubleshooting.

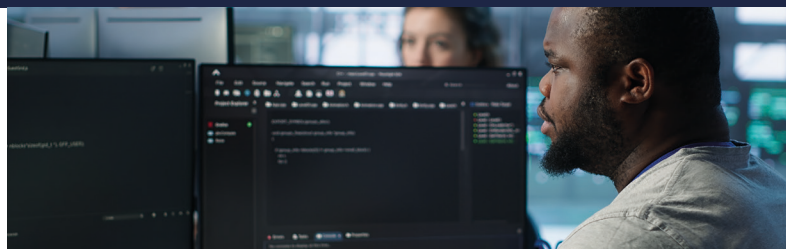

Flexible Learning:

Study online or in-person, full-time or part-time.

Career Support:

We help you prep for the job market and interviews.

WHAT YOU'LL LEARN?

Server hardware **installation and maintenance**

Virtualization and cloud computing

RAID, storage, and backup solutions

Network and physical **security**

Disaster recovery and server decommissioning

Troubleshooting OS, apps, and network issues
